

Plainfield Conservation Commission Minutes
June 16, 2021

Present: Serena Matt, Rose Paul, Sarah Albert, Becky Atchinson, Mary Trerice
(We met on Rose's front lawn.)

Minutes: Approved with Rose's addition of the Green-Up Day report to May's minutes.

Tree Sale: See the attached separate report from Serena.

Town Forest: We will meet at the Maxfield Rd. lot on June 19 at 3:30 to walk the trails and scope out work that needs to be done. We need to keep trying to find a solution for Gonyeau Rd. The access is not suitable for regular vehicles. Becky had a tale of getting hung up on the road recently. Mary will find out what transportation grant was mentioned at a recent Select Board meeting that had gullied Class 4 roads as eligible. Rose will talk with Mike Nolan, road foreman, about the work he thought might be possible.

EAB: Rose and Serena will conduct an Emerald Ash Borer survey, probably in July, based on the training they received. They will let us know when this is to happen.

Recruiting: We all agreed that it would be excellent to have new members. We felt it would be helpful to better identify our current regular activities and our wish list for the town and then work on a strategy for getting out the word and hopefully attracting others to serve with us. We will devote July's meeting to this.

Next Meeting: Serena will see if there is someplace we can meet inside. The ground floor room at Town Hall or the library were suggested.

Adjourn: 8 pm

Respectfully submitted,
Mary Trerice
